Responsible gaming

Last updated: 11/01/2026 · Version 1.0

Boss Hub provides B2B services only and does not serve players directly. It provides tools that support operators' responsible gaming obligations.

1. Age limit of 18

Games open only to players who are 18 or over and have passed the operator's age verification.

2. Operator tools

Bet limits, session time reminders and per-player restrictions are managed in the operator portal.

3. Risk signals

The fraud and risk module reports unusual play behaviour to the operator.

4. Support organizations
